

~~SECRET~~/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

-----  
PROJECT NUMBER: 0066                      SESSION NUMBER: 1  
DATE OF SESSION: 6 MAY 88                DATE OF REPORT: 9 MAY 88  
START: 1531                                END: 1533  
METHODOLOGY: CRV                         VIEWER IDENTIFIER: 025  
-----

1. (S/NF/SK) MISSION: Stage 1, Phase 1 training. Site was a Middle of the Atlantic Ocean, (north of the Antarctic Circle).
2. (S/NF/SK) VIEWER TASKING: Coordinates 6241/3219.
3. (S/NF/SK) COMMENTS: The trainer caught 025 off guard, asking what temperature the "water" was. The correct perception served to bolster 025's confidence. The trainee is still rushing the process; the trainer reinforced the point that the coordinates should be taken at least a couple of times so that enough data may be perceived to make an analytic determination, i.e., call a "B".
4. (S/NF/SK) EVALUATION: [3] First ideogram was decoded as "land".
